

# Flowers And Flourishes

WITH VICTORIA PITTMAN

Capital Calligraphers invites you to a two day workshop with Victoria Pittman, highly respected master calligrapher, international calligraphy teacher and a Master Gardener. Victoria will help us to work in several methods to create free and spirited natural forms. This class uses a unique combination of oriental painting techniques and pen manipulation to produce the natural floral forms which will be rendered in ink, watercolor and acrylics. Botanical walks and fresh plant specimens will provide inspiration for our painting. Our final presentations will integrate the florals with our lettering. Join us for two special days with Victoria Pittman!
