

100 CANDLES CIRCLE CARD

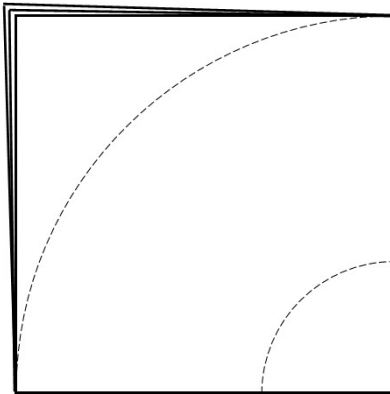

1. Cut a large square of paper to preferred size (Canson Mi-Tientes works well).

2. Fold the square in half in both directions [see right]

3. Keep folded and cut the outer corner into a quarter-circle.

4. Then, cut the folded corner into a quarter-circle. (The deeper the cut the smaller your card surface will be.)

5. Open up the folded paper and you have a circle with a hole in the middle.

6. Cut one edge to open the circle and fold each section in half (thirds if the paper is larger).

7. Accordion fold all the sections so the card will fit into its envelope.

8. Decorate the "front" of the card.

9. Open the circle, lay flat, and add calligraphy along the outer edge and cut paper candles around the circle as shown. (Candle flames are cut with heart punch.)
